ABDELRAHMAN ALHERBAWI
INFORMATION TECHNOLOGY
(Computer Science)

abdelrahman@alherbawi.work
LinkedIn | GitHub | Amman, Jordan | +962 781635807

Key Skills

- AWS
- Terraform(Iac)
- Networking
- Bash Script
- Cloud Computing
- DevOps
- Python
- Github
- Angular Framework
- Grafana
- MySQL
- Creative problem solving

Experience

CIRRUSGO (05/2024 - now)

DevOps Engineer: .

- Developed **infrastructure automation** using **Terraform** and **cloud best practices**.
- Created **Grafana dashboards** for real-time system monitoring and performance insights.
- Ensured **security** by integrating **Web Application Firewall (WAF)** and other protective measures.
- Create CI/CD pipeline with Github Action to deploy to S3

ORIENTED SOFTWARE (08/2022 - 12/2022)

Frontend Developer: Intern position

- Angular Framework
- Test API
- Problem Solving
- Teamwork & collaboration

Education

Bachelor's degree in **Computer Science** at **AL Balqa' Applied University (BAU)**

Training & Volunteering

Certified Solutions Architect - Associate | (07/2024-04/2027)
Amazon Web Services re/Start Program : (Certified) AWS Cloud Practitioner | (01/2024-04/2024)
Postman Academy: (Certified) API fundamentals student expert | (01/2024)
Cisco Academy - Al-Hussein Tech Uni: Cisco Certified Network Associate (**CCNA**)| (06/2023-10/2023)
Huawei - AL Balqa' Applied University: (Certified) Cloud Computing | (02/2022-06/2022)
Mujaddidun Jordan: Volunteer (2020 -Present)

Projects

- **Graduation project**: Recommendation system (**Book Shop**)
  Our graduation project involved developing an AI-powered recommendation system for a Book Shop, facilitating customer book exchanges. Through this project, I gained valuable experience in web development, learning HTML, CSS, JavaScript, the Angular framework, and API integration.

- **Numerical Methods** : it is a calculator for numerical methods to find points on a graph.
